

INNOVATIVE TECHNOLOGY FOR PEOPLE WITH DISABILITIES AND THEIR CAREGIVERS

Researchers from the University of British Columbia are looking for volunteers to participate in a study prioritizing technological solutions for people with disabilities and their caregivers.

We are looking for individuals who:

- are 19 years of age or older;
- have a disability or chronic illness and receive help from a family member OR are a past or current family caregiver
- can read, write and speak in English or French.

If you choose to take part and are eligible to participate:

You will be asked to complete a **web survey** (it will take **10-15 minutes**).

You will answer **questions** on how important you consider each of 10 potential technological solutions that will help meet the needs of caregivers. You will also answer some questions about yourself and your caregiver background. The survey is anonymous, and you will not need to include your name.

The web link to the English and French versions of the survey is https://ubc.ca1.qualtrics.com/ife/form/SV_b3o8fOBEodpPltj

If you prefer, you can also complete the questionnaire over the **telephone** or **in person**. One of our research assistants will call you on your preferred line or meet you at the location of your choosing.

Participants will have the option to enter a draw to win one of three \$100 gift cards.

For more information, please contact Jodine Perkins at **604-737-6491** or email at jodine.perkins@ubc.ca
